Manssouri Youssef

Business Analytics & AI Student · Junior Web Developer

First-year Business Analytics & AI student who builds while studying — from an IT workflow optimization tool deployed during a public-sector internship to a full-stack e-commerce platform with a custom CRM. Combines data analysis foundations (Python, SQL) with web development capabilities (JavaScript, HTML5, CSS3) to design solutions that improve operational visibility and decision-making. Seeking to contribute analytical and technical skills in a real-world environment.

EDUCATION

Bachelor of Business Analytics & Artificial Intelligence (In Progress)

2025 – Present

EMAA Business School · Agadir, Morocco

- Core modules: Business Intelligence, Database Systems, Python for Data Analysis, Statistics, Digital Marketing, AI Fundamentals
- Applying academic knowledge through independent projects in workflow automation, data organization, and web development

Baccalaureate in Economics

2025

Attaraji School · Agadir, Morocco

- Specialized in economics with a strong foundation in quantitative analysis, business principles, and critical reasoning

PROJECTS

IT Support Management Optimization Tool

2026 · Personal Project

- Architected a ticket-flow management system to monitor, categorize, and prioritize IT support requests — reducing visibility gaps in recurring technical issues
- Built a structured data tracking framework using Python and Excel to identify issue patterns and support data-driven resolution prioritization
- Designed an end-to-end operational dashboard in Notion to centralize request status, ownership, and resolution timelines

Tools & Technologies:

Excel

Google Sheets

Notion

Python

Perfume E-Commerce Website & CRM — Demo

2026 · Demo Project

- Designed and developed a full-stack e-commerce demo for a perfume brand — product catalog, shopping cart, checkout flow, and order management
- Built a custom CRM module to simulate customer data management, order tracking, and client follow-up workflows
- Implemented end-to-end front-end and back-end logic, demonstrating ownership of the full product development cycle

EXPERIENCE

Administrative & IT Support Intern

2026

Wilaya de la Région Souss Massa & Préfecture d'Agadir Ida Outanane · Agadir, Morocco

- Served as IT support contact within a public-sector environment, resolving internal requests and maintaining workflow continuity across departments
- Reorganized internal documentation and record classification system, improving retrieval speed and reducing processing errors
- Contributed to ticket-flow management by identifying recurring technical issues and flagging patterns to senior staff
- Operated under strict public-sector compliance standards, maintaining accuracy across all processed administrative records
